About Rann Of Kutch

The Rann of Kutch is a vast salt marsh located in western India, primarily in the state of Gujarat. It stretches over 7,500 square kilometers and is renowned for its unique and barren landscape. The region undergoes dramatic transformations with the changing seasons, turning into a shimmering white desert during the dry months and a shallow wetland during the monsoon season. It is home to diverse wildlife, including flamingos, wild asses, and other migratory birds.
